- Sharing
- Appearance and accessibility
- Groupware
- Flow

Administration

- Overview
- Basic settings
- Sharing
- Security
- Theming

☐ Allow username autocompletion to users based on phone number integration

If autocompletion "same group" and "phone number integration" are enabled a match in either is enough to show the user.

☑ Allow autocompletion when entering the full name or email address (ignoring missing phonebook match and being in the same group)

☐ Show disclaimer text on the public link upload page (only shown when the file list is hidden)

Default share permissions

☑ Create ☑ Change ☑ Delete ☑ Reshare

Federated Cloud Sharing

Adjust how people can share between servers. This includes shares between users on this server as well if they are using federated sharing.

☑ Allow users on this server to send shares to other servers (this option also allows WebDAV access to public shares)
☑ Allow users on this server to receive shares from other servers
☐ Allow users on this server to send shares to groups on other servers
☐ Allow users on this server to receive group shares from other servers
☑ Search global and public address book for users
☑ Allow users to publish their data to a global and public address book
