List of known issues to be aware of including **blessed versions** of components

(last updated 24 February 2023):

Due to breaking changes in the OCM invites protocol, we now have a network split. You need to decide whether you want your site to be part of "Network Alpha" or of "Network Beta".

For Network Alpha

- Due to [this issue](#) you should use [this blessed version of Reva](#)
- Due to [this issue](#) you should use the `main` branch of <https://github.com/pondersource/oc-sciencemesh>
- Due to [this issue](#) you should use the `main` branch of <https://github.com/pondersource/nc-sciencemesh>
- [Problems with verify_request_hostname](#)

For Network Beta (not recommended yet!)

- Due to [this issue](#) you should use [this blessed version of Reva](#)
- Due to [this issue](#) you should use the `sciencemesh` branch of <https://github.com/pondersource/oc-sciencemesh> instead of the app from the marketplace
- Due to [this issue](#) you should use the `sciencemesh` branch of <https://github.com/pondersource/nc-sciencemesh> instead of the app from the marketplace
